

# Ditsch QH Hybrid CTA

Where Quant Models Meet Commercial Grain Expertise  
— A Smarter Way to Invest.

## Fundamentals Define Value. Signals Reveal the Path.

Our hybrid approach combines deep commercial expertise with systematic models that map the path, manage the risk, and size the exposure.

### The Result

A strategy rooted in real fundamentals, guided by quant clarity, and executed with professional discipline.

## Built for Investors Seeking a True Hybrid Approach to Commodity Trading

Management services are offered by Quantum Hedging CTA – NFA ID: 0566667. Managed Acres brokerage services are offered by Boundary Waters Capital, dba Quantum Hedging BR – NFA ID: 0560271. Commodity trading, including futures, hedging and speculating, involves substantial risk of loss and may not be suitable for all investors. Past performance is not necessarily indicative of future results. Any historical returns, expected returns, or probability projections are forward-looking statements and may not reflect actual future performance. Quantum Hedging does not distribute research reports, employ research analysts, or maintain a research department as defined in CFTC Regulation 1.71. ©2025 Quantum Hedging Consolidated, LLC. All Rights Reserved.

# Why This Strategy Is Different

## The Team

### Mark Ditsch — Head Trader

Mark brings more than 25 years of global experience in commercial grain markets. He began his career at CGB, learning the grain trade at river terminals before moving to Zen-Noh, where he became a trailblazer in the emerging Chinese soybean market. His experience also includes working with the LaSalle Group and serving as Noble-Agri's Global Head of Proprietary Trading. Mark's ability to connect quantitative signals with commercial fundamentals forms the core of the Hybrid CTA's philosophy.

### Cy Monley — Managing Partner, Quantum Hedging

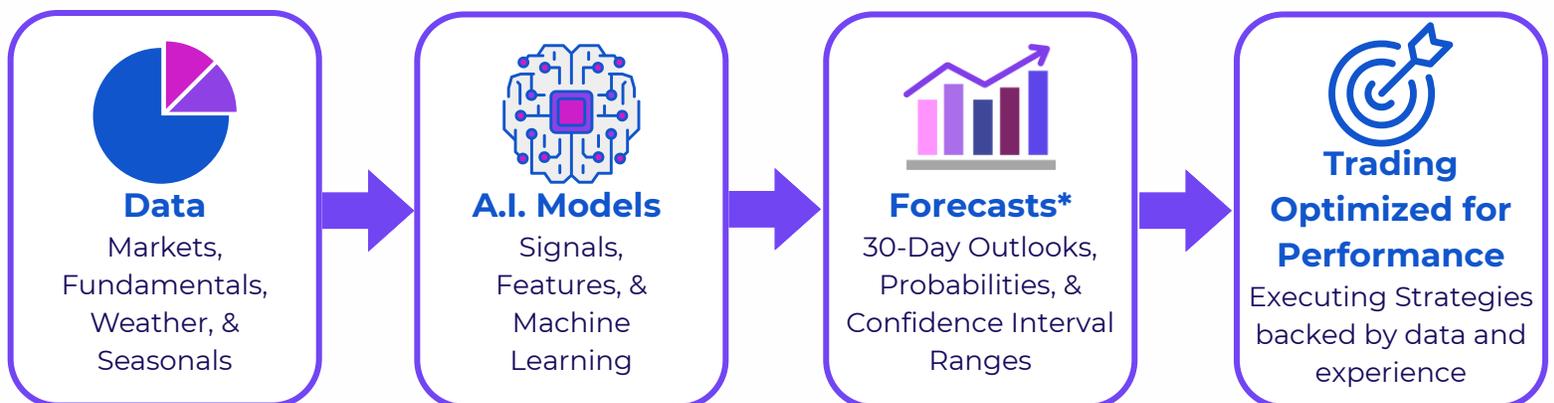

Cy brings 23 years of agricultural commodity trading experience with a diverse and entrepreneurial background. Before founding Quantum Hedging, he co-founded Silveus Financial, Structured Commodity Solutions, and the Commodity Trading Advisor Trevinci Liquid Ag Strategy. Cy is currently Managing Trader for Quantum Hedging's CTA programs and has been instrumental in the building of Quantum Hedging's Proprietary Model. His decades of professional trading experience shapes the strategic and practical backbone of Quantum Hedging.

### Our Data-Driven Forecasting Model

Quantum Hedging's forecasting engine blends quantitative signals with market structure, volatility regimes, behavioral flows, and macro inputs. The model is designed not to replace fundamentals, but to map the pathway markets take as they converge toward them. This data-driven framework helps identify timing, sizing, and risk boundaries—turning what was once intuition into measurable, actionable insight.

**\*No analytical approach can guarantee improved performance or reduced market risk. Individual program targets aren't guaranteed to be achieved.**
